

**OPEN CALL VOLUNTEERS:
KISMIF CONFERENCE
2020**

The KISMIF Conference (2014-) is an international academic/cultural/artistic event based in the city of Porto (Portugal) and focused on discussion and information sharing around underground cultures, DIY practices and related themes. KISMIF focuses on cultural practices that are used to address more massive and uniformed forms of cultural production/creation/mediation; activating an anti-hegemonic ethos centred around an aesthetic and politics of the everyday 'arts of doing'.

KISMIF is, so far, the only congress that analyses the theory and practice of underground scenes and DIY cultures as increasingly significant cultural forms in the global context. (...) More information about the event on the official website:
